

## Shaw and Smith Adelaide Hills, Australia

SHAW AND SMITH

Shaw and Smith began over a long lunch in 1989 when cousins Martin Shaw and Michael Hill Smith decided to realize a long held dream to make wine together. Shaw and Smith is focused on the Adelaide Hills with its small vineyards and unique microclimates and continues to win accolades from the critics both at home and abroad.

### 2008 Sauvignon Blanc

Shaw and Smith is a benchmark for Australian Sauvignon Blanc. Sauvignon Blanc performs particularly well in the cool Adelaide Hills where it has become a specialty. Made from 100% Adelaide Hills fruit, principally from their Woodside Vineyard, the style is unwooded to maximize its varietal character.

The aroma shows restrained Sauvignon grassiness coupled with riper fruit characters. The palate is young and lively with attractive varietal flavours and refreshing acidity. A lean yet flavoursome wine best drunk within 18 months.

**(750ml x 12)**

### 2007 M3 Chardonnay

The Adelaide Hills now produce some of Australia's finest and most sought after Chardonnay. These are sophisticated, barrel fermented wines with fine fruit character, and restrained oak.

M3 is made exclusively from grapes grown on Shaw and Smith's M3 vineyard at Woodside. The grapes are hand picked and whole fruit pressed prior to undergoing barrel fermentation and maturation in French oak. Extended time on yeast lees and partial malolactic fermentation impart greater complexity and flavour.

The aim is to produce the finest Chardonnay possible – a wine that has the capacity to age in bottle.

**(750ml x 6)**

### 2008 Shiraz

Shaw and Smith Shiraz is modern Australian Shiraz; less reliance on oak, vibrant and bright. The wine displays distinctive pepper and spice characters with good mid palate weight and length. It has fine fruit concentration and purity of character.
